This Week:

Our first week has been successful! We continue to acclimate to our new classroom. We talked about things we *want* to do in school, things that make us feel happy inside, like sharing, turn taking, and having a calm body.

We were totally engaged in small groups this week, making a portrait of ourselves with collage materials, sorting and counting animal toys, and working with Playdoh. Our Speech Pathologist, Mrs. Briski, also joins us for small groups a few days a week.

The students explored playdoh and watercolor paint in the art center. Our dramatic play center is in full swing with a baby doll, doll clothes, pretend food, and pretend dishes. We have writing utensils there too so that students can engage with making a shopping list!
