Hello Preschool Families,

Welcome to our Exercise Unit! This week we began by talking about our favorite exercise. We drew and wrote about our favorite exercise in our journals. Popular choices were karate, soccer, basketball, and bike riding. Exercise is part of being healthy, so we took this opportunity to talk about how our healthy bones help us exercise. We used white crayons, black paper, and q-tips to build skeletons. Students also engage in a letter sound matching activity and a static electricity science experiment.

We transformed our dramatic play area into a fitness center, with water bottle “weights” and healthy foods for sale. We added x-ray images of healthy bones to our light table, and theme related books to the library. We will continue to expand our theme to other areas of the classroom as our study continues.

Thank you for sending in exercise related pictures and items!

Building “healthy bones” skeletons and experimenting with static electricity!

Weather Reminder:

We play outside any day that is above 25 degrees. Please send your child to school in a warm jacket daily. Thank you!

Thank you sincerely, Ms. Fierke, Mrs. Michelle, and Mrs. Audrey
